Dublin seamlessly blends over one thousand years of history and heritage with all the features of a modern, cosmopolitan city.

A ten year programme of sustained investment in science has resulted in world-class universities supporting cutting-edge research.

Renowned for its friendliness and the richness of its social and cultural life, Dublin will deliver an intellectually, culturally and socially invigorating programme for delegates. So, come to Dublin for the best of European science at ESOF 2012 and stay on in Ireland for the craic!

Dublin will host the **Euroscience Open Forum (ESOF)**

from the 11-15 July, 2012

ESOF is an interdisciplinary, pan-European meeting, held under the auspices of Euroscience, which aims to:

- Showcase the latest advances in science and technology.
- Promote a dialogue on the role of science and technology in society and public policy.
- Stimulate and provoke public interest, excitement and debate about science and technology.

The event will bring together 6,000 scientists, business leaders, government officials and international media to discuss the best of European science and to address all of the major global challenges, including Energy, Climate Change, Food and Health.

ESOF 2012 will incorporate a number of distinct streams:

- A **Science** programme of seminars, workshops and debates on the latest research.
- A **Media** programme to promote science communication.
- A **Business** programme to link basic research with industrial applications.
- A **Careers** programme for young researchers.
- An **Exhibition** to showcase the best of European public and private research.
- An **Outreach** programme to engage with the general public.
